

BABYLEAF CHARD

ROYAL RED

A green chard with bright red stems ideal as an inclusion in salad mixes. **ROYAL RED** produces a very uniform, even growing crop allowing for ease of harvest. **ROYAL RED** shows strong tolerance to bacterial spotting, resulting in clean leaves year round.

The vivid red stems provide for an unusual colour inclusion in salad mixes while the thick leaves provide texture and weight, even in the faster growing Summer months when the thick leaves allow for extended shelf life.

VARIETY FEATURES

- Dark green/red leaf colour
- Red stem colour
- Oval leaf shape
- Smooth leaf margins
- Erect growth habit

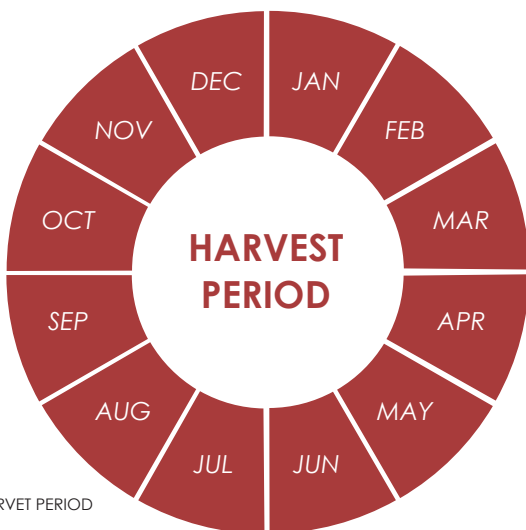

AGRONOMIC CONSIDERATIONS

- Best results obtained from high population sowings particularly for machine harvested crops
- Good field tolerance to bacterial spot

PACK SIZES

1kg, 5kg, 10kg
