

# BABYLEAF BEET BLUSH

**BLUSH** is a dark red beet with excellent uniformity and colour. For the production of deep red beet leaves, **BLUSH** has improved depth of colour and retains this colour during warmer production periods.

The greater uniformity of leaves in relation to shape and size means **BLUSH** is a reliable inclusion for salad mixes. Suitable for year round production. **BLUSH** has good vigour consistently producing high yields of attractive, sweet tasting leaves. Like Ruby Lips the red colour will deepen under cooler conditions.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

## VARIETY FEATURES

- Dark red leaf colour
- Dark red stem colour
- Oval leaf shape
- Smooth leaf margins
- Erect growth habit

## AGRONOMIC CONSIDERATIONS

- Best results obtained from high population sowings particularly for machine harvested crops
- Good field tolerance to bacterial spot

## PACK SIZES

1kg, 5kg, 10kg
