

BABYLEAF MUSTARD

RED MUSTARD

A standard selection, **RED MUSTARD** is a very fast growing oriental mustard which produces variegated leaves of red and green colour making it an attractive addition to babyleaf salad mixes.

The red colour will dominate under cooler conditions and the green colour becomes more dominant under heat. Due to the fast maturity, **RED MUSTARD** has limited field hold and a mildly pungent flavour.

VARIETY FEATURES

- Purple/green colour
- Purple/green stem colour
- Round/oval leaf shape
- Serrated margins
- Semi-erect growth habit

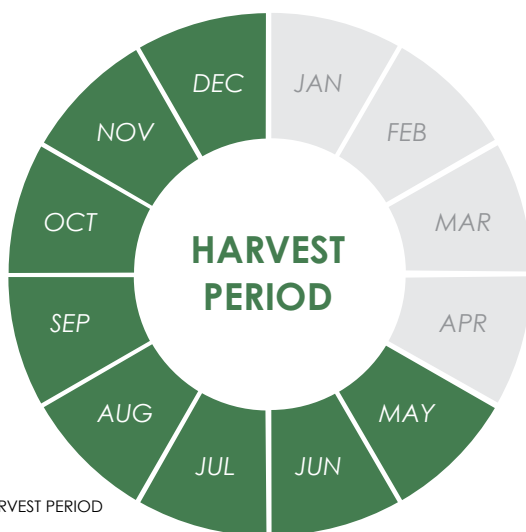

AGRONOMIC CONSIDERATIONS

- Best results obtained from high population sowings particularly for machine harvested crops
- Sow smaller areas more frequently to maximise product quality due to limited field hold

PACK SIZES

1kg, 5kg, 10kg

 HARVEST PERIOD

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
