

CELERY CHARGER

CHARGER is a dark green, vigorous celery for harvesting in the cool of late Autumn/ Winter and early Spring.

A direct replacement for Falcon, **CHARGER** has many of the attributes of its predecessor, it has finely ribbed, highly uniform petioles, is strong against cracking at the knuckles and shows strong tolerance to Septoria spotting. Although not quite as tall as Falcon, bunches of **CHARGER** are heavier.

VARIETY FEATURES

- Dark green petiole colour
- Finely ribbed petiole texture
- Vigorous plant habit

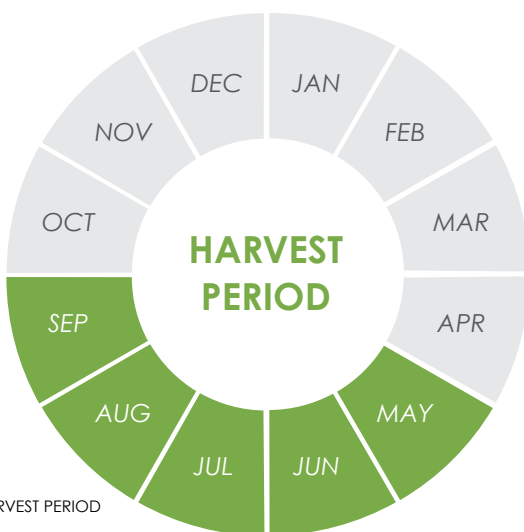

AGRONOMIC CONSIDERATIONS

- A hybrid variety
- Susceptible to bolting if grown when the pressure is high

PACK SIZES

25M, 100M
