

HERB PARSLEY GRANDE

GRANDE is a flat leaf parsley (also known as Italian plain leaf) variety suitable for production in hydroponics or in the open field. Able to be grown year round, **GRANDE** can be susceptible to bolting but has excellent vigour and so performs well outdoors for harvesting during the cooler Winter period.

GRANDE produces thick leaves of good colour with a mild flavour and is able to be used for fresh consumption, freezing and is very popular for drying.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Mid-dark green leaf colour
- Flat, feathered leaf
- Vigorous and erect plant habit

AGRONOMIC CONSIDERATIONS

- Suitable for open field or hydroponic production systems

PACK SIZES

100G, 1KG, 5KG
