

TURNIP TOKYO

A long time market standard, **TOKYO** produces highly uniform roots with good tolerance to pithiness. A highly vigorous variety, **TOKYO** may bolt if sown too early in the Spring in some locations throughout New Zealand.

The roots of **TOKYO** can be harvested at any stage but best root quality and eating qualities are achieved when roots are 8-10cm in diameter.

VARIETY FEATURES

- White skinned roots
- Globed shaped roots
- Vigorous tops

AGRONOMIC CONSIDERATIONS

- A hybrid variety
- Matures in approximately 9 weeks from sowing

PACK SIZES

25G, 100G, 500G
