

SPINACH ECLIPSE

ECLIPSE is a dark green, extremely vigorous spinach suitable for both babyleaf and bunching production in cool and cold seasons. **ECLIPSE** is best suited for Winter and Spring harvest where its upright habit and high vigour makes it the ideal variety for difficult growing conditions. **ECLIPSE** can be used in more southern areas from late Autumn. **ECLIPSE** has an overall flatter leaf but will develop a slight savoy when grown in cold conditions. **ECLIPSE** will appeal to growers who have traditionally enjoyed the flexibility and reliability of Black Glove but **ECLIPSE** brings the advantage of a wider and thicker leaf.

VARIETY FEATURES

- Dark green leaf
- Oval leaf shape
- Very slight savoy

AGRONOMIC CONSIDERATIONS

- Strong tolerance to bolting

PACK SIZES

100M, 500M, 1MM
