

# MICROGREEN AVEA

**AVEA** is a feather pea specifically bred for sprouting and microgreen production. **AVEA** is a semi-leafless pea which produces a high number of tendrils ideal to add to salad mixes or as a garnish. The architecture of this pea shoot combines with a mild pea flavour which is favoured by chefs around the country.

## VARIETY FEATURES

- Mid green cotyledons
- Mid green tendrils
- Mild pea flavour

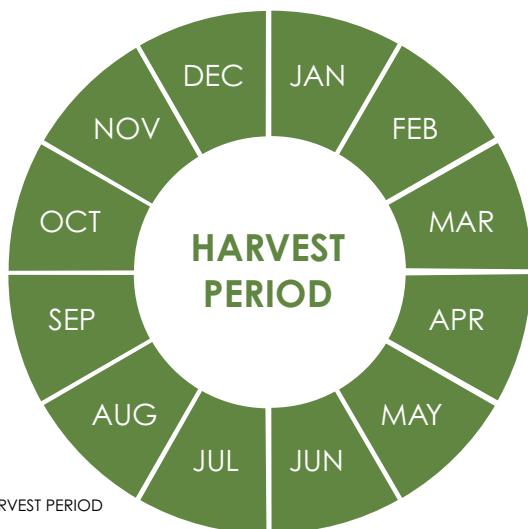

## PACK SIZES

500G, 5KG, 10KG

## Untreated seed

All our microgreen seeds are untreated.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location.
