

SQUASH SPAGHETTI NUGGET

A spaghetti squash, **NUGGET** matures in around 85 days from direct sowing. With a semi-bush growth habit, **NUGGET** should be planted at a higher plant population, therefore obtaining greater yields. The fruit of **NUGGET** have an average weight of 1.3 kg with good uniformity of size and shape due to hybrid breeding. With excellent internal qualities, **NUGGET** produces fine 'spaghetti' strands in the internal cavity with a nutty flavour.

VARIETY FEATURES

- Spaghetti squash variety
- 1.3 kg fruit weight
- Bright yellow skin colour

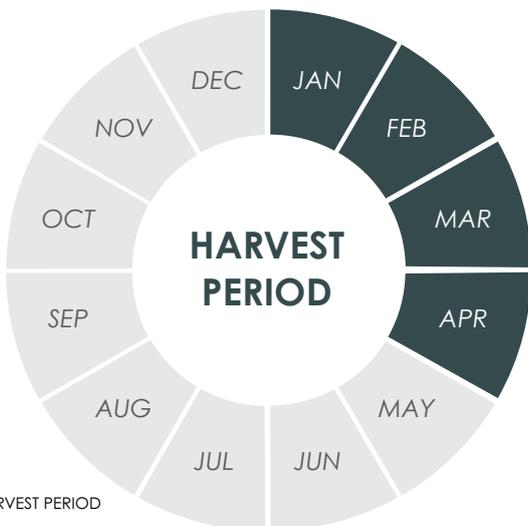

AGRONOMIC CONSIDERATIONS

- A hybrid variety
- Semi-bush habit so can be planted at a higher density
- Some susceptibility to powdery mildew so will require appropriate management
