

# SPINACH NEO

**NEO** is a high yielding, extremely uniform Summer/Autumn harvest spinach that will stand up to the heat of Summer in the very warmest regions growing with an even, constant vigour.

**NEO** develops very thick, oval shaped leaves which have an extremely upright habit allowing for ease of harvest. The leaves have an attractive, medium savoy that gives texture in the bag and results in high yields – as nights cool in Autumn this savoy becomes even more pronounced.

**NEO** shows strong tolerance to yellowing in periods of unseasonable rain and has strong tolerance to pythium in periods of heavy stress.

## VARIETY FEATURES

- Dark green leaf colour
- Oval leaf shape
- True semi-savoyed leaf texture

## AGRONOMIC CONSIDERATIONS

- Strong tolerance to bolting

## PACK SIZES

100M, 500M, 1MM

HARVEST PERIOD

## DISEASE RESISTANCES

High Resistance: Pfs:1-12, 14-16, 19

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location.
