

# RED RADISH CONEY

**CONEY** is fast maturing red radish for cool season harvest.

**CONEY** produces bright red bulbs with a vibrant, white internal which shows limited zonation.

A key feature of this variety is the exceptional uniformity which allows for a high recovery rate come harvest.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
