

SPECIALITY BEETROOT MERLIN

MERLIN is a high quality beetroot bred specifically for baby beetroot production. **MERLIN** offers higher sugar content (12-15%) in comparison to standard beet varieties.

Due to its high sugar content, it is a perfect choice for processing and fresh market growers. **MERLIN** has smooth, red, globe-shaped roots, with small to medium crowns and taproots.

VARIETY FEATURES

- High sugar content
- Small tap root
- Deep red colour.

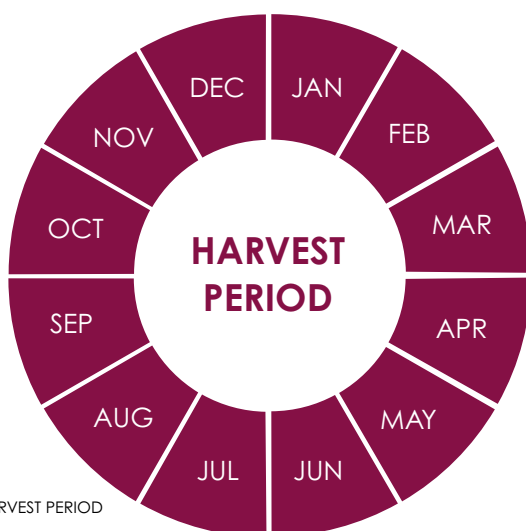

HYBRID VARIETY

PACK SIZES

100G, 500G, 5KG

The information provided here is based on an average of data and observations collected from our trials. Significant variation in performance may occur due to a range of factors including cultural management practices, climate, soil type, and geographic location.
