

LETTUCE ICEBERG

CENTAUR Nr

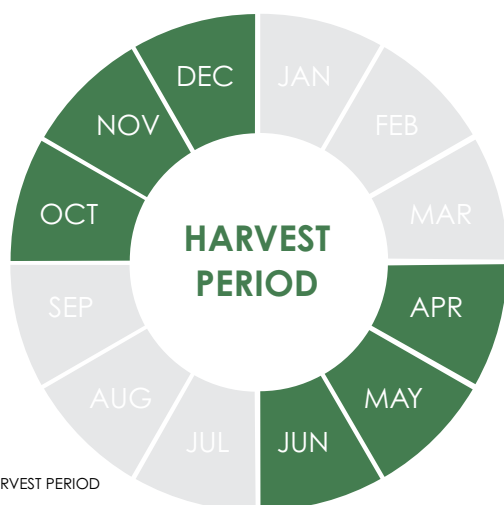

A highly uniform lettuce for spring harvest, **CENTAUR** produces medium sized heads with good internal qualities.

CENTAUR is well suited for the cool to warm transition where it is fast to mature but will hold very well until harvest rather than becoming puffy and unmarketable.

CENTAUR may also suit the late autumn/early winter slot in some production areas. **CENTAUR** forms flat-round heads that sit up off of the ground allowing for ease of harvest.

The heads are protected against late frosts by a nicely wrapped frame. **CENTAUR** shows excellent tolerance to mildew and lettuce big vein.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Mid-green head colour
- Medium head size
- Medium vigour and medium frame.

AGRONOMIC CONSIDERATIONS

- Strong tolerance to tip burn
- Moderate tolerance to bolting.

PACK SIZES

10M, 25M, 100M

DISEASE RESISTANCES

High Resistance: Bl.1-29, 32, 34, Nr:0, MLBVV

UNTREATED SEED

Available as untreated seed.
