

# BROCCOLI MARATHON

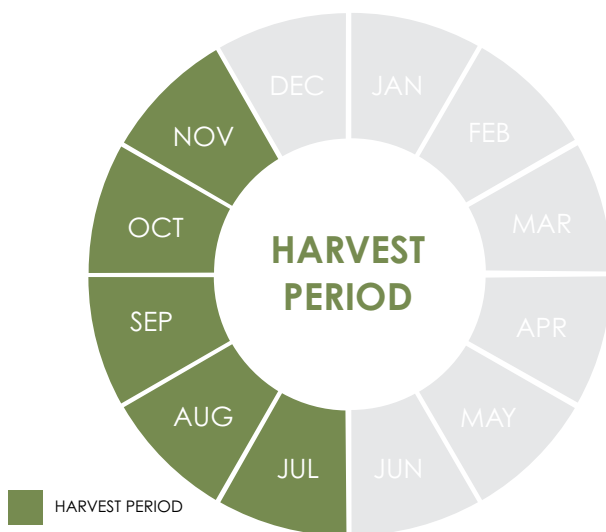

**MARATHON** is a highly adaptable variety that is grown in most production regions throughout the country and can be harvested for most timeslots during the cool season.

The world standard for cool season production for many years now, **MARATHON** performs particularly well for winter harvest in the South Island.

**MARATHON** produces a uniform head of good quality with moderate holding ability.

A reliable variety under a range of environmental conditions.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.
