

BROCCOLI BRUMBY

The number one performing broccoli throughout the country, **BRUMBY** has proven itself as not just the most heat tolerant variety available but has also shown its ability to perform in the variable conditions of early summer and autumn.

A powerful variety, **BRUMBY** has a large, tall frame which serves the dual purpose of protecting the head from mid-summer sun and providing vigour as the variety continues production into the cool autumn evenings.

Characteristics of **BRUMBY** include excellent holding ability, high recovery rate, versatility in weather extremes and an extremely wide harvest window.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Fine bead size
- Green/blue head colour
- Summer and autumn harvest
- Relative maturity 9-13 weeks.

AGRONOMIC CONSIDERATIONS

- Susceptible to blindness
- Growers should be wary of over-fertilising as the excellent plant vigour means additional nutrition is not required.

HYBRID VARIETY

PACK SIZES

10M, 50M, 100M

UNTREATED SEED

Available as untreated seed.
