

# BROCCOLI MEDLEY

A Marathon type, **MEDLEY** is adaptable to both warm and cool conditions and is suitable for autumn, early-winter and spring harvest.

About 7-10 days later to mature than Marathon and Legacy, **MEDLEY** produces heads of excellent quality with superior field hold which can be grown to a very large head size without the florets going loose around the head.

**MEDLEY** produces a very high marketable yield and the harvested product has excellent shelf life.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

## VARIETY FEATURES

- Fine bead size
- Mid-green head colour
- Autumn, winter and spring harvest
- Relative maturity 15-20 weeks.

## AGRONOMIC CONSIDERATIONS

- Susceptible to blindness
- May require more trimming than traditional market standards depending on conditions of growth.

## HYBRID VARIETY

## PACK SIZES

10M, 50M, 100M

## UNTREATED SEED

Available as untreated seed.
