

GREEN CABBAGE ASIA

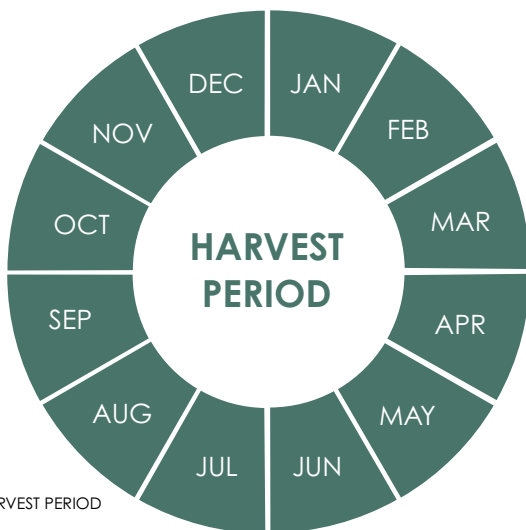

For green cabbage production, **ASIA** is a true drumhead variety which has proven to produce quality heads of cabbage nationwide.

ASIA produces dense heads of medium size and an attractive green colour.

ASIA has some tolerance against bolting and will produce a much shorter core during the spring bolting period.

ASIA offers a very uniform head size with a substantial outer frame.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Green/blue head colour
- Flat-globe head shape
- 1.5-3.0kg head weight
- Medium head size.

AGRONOMIC CONSIDERATIONS

Depending on planting time heads will mature in approximately 12-16 weeks.

HYBRID VARIETY

PACK SIZES

10M, 50M, 100M

UNTREATED SEED

Available as untreated seed.
