

BROCCOLI MERA

MERA is a quick-maturing variety for cool season production. This variety is extremely uniform, easy to cut and has exceptional shelf-life post harvest.

MERA produces a smaller frame than most varieties in the market, allowing growers the opportunity to increase planting density if desired.

MERA has a highly domed head, with attractive small beads, that maintains its shape and quality once mature.

MERA is particularly suited to spring harvest as it has shown good tolerance to blindness.

VARIETY FEATURES

- Small bead size
- Green head colour
- Highly domed head
- Strong against buttoning
- Quick to mature.

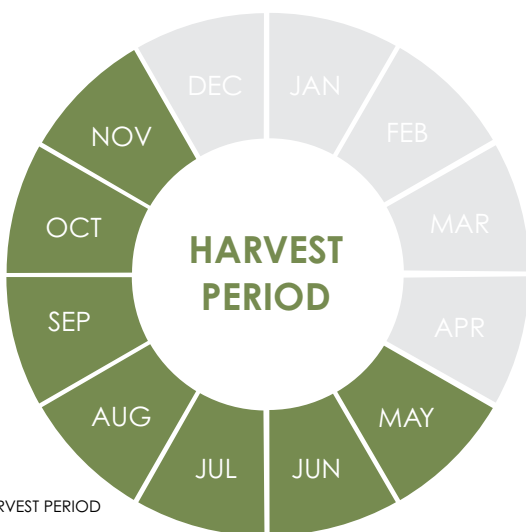

HYBRID VARIETY

PACK SIZES

10M, 50M, 100M

HARVEST PERIOD
