

LETTUCE LOLLO BIONDA

JESTER Nr

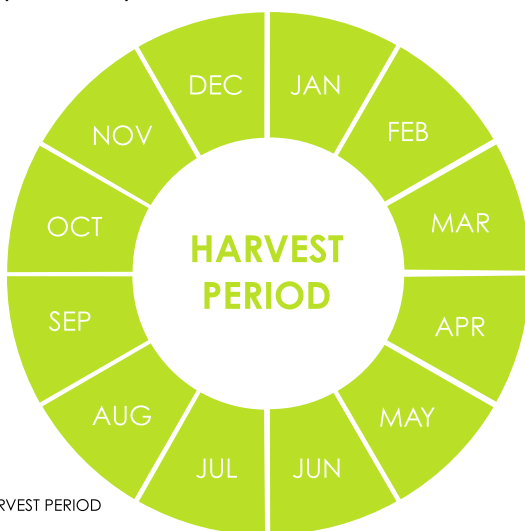

JESTER is a medium-sized Lollo Bionda lettuce suitable for year round production. With less vigour than both Countess and Monroe, **JESTER** is ideally suited for the heat of the summer and autumn when its tightly curled leaf tips will tolerate high tip burn pressure.

JESTER shows strong bolting tolerance in late spring/early summer and consistently presents highly uniform heads throughout the crop.

The leaves of **JESTER** are thick and crisp providing extended shelf life for sleeved heads.

JESTER has a strong disease package with full mildew cover (Bl. 16-40) and is Nasonovia resistant.

The information provided here is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions, including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds (NZ) Ltd cannot accept liability as to accuracy of this information.

VARIETY FEATURES

- Light green colour
- Medium head size
- Medium vigour.

AGRONOMIC CONSIDERATIONS

- Suitable for field production and hydroponic systems
- Strong tolerance to tip burn
- Strong tolerance to bolting.

PACK SIZES

1M, 5M

DISEASE RESISTANCES

High Resistance: Bl:16-40, Nr:0
