

# HERB THYME TIFFANY

**TIFFANY** is a german winter thyme, suitable for year-round production in sheltered situations and hydroponics.

Regular harvest of the young leaves and shoots, prior to flowering, allows for continual growth.

Leaves can be used fresh, processed or dried.

**TIFFANY** has more narrow leaves than 'English' type thyme varieties on the market.

## VARIETY FEATURES

- Mid-dark green leaf colour
- Thick, aromatic leaves
- Short, upright shrub.

## AGRONOMIC CONSIDERATIONS

- Suitable for hydroponic production systems
- Suitable for field, in sheltered areas.

## PACK SIZES

100G, 1KG, 5KG

Suitable for potted production.

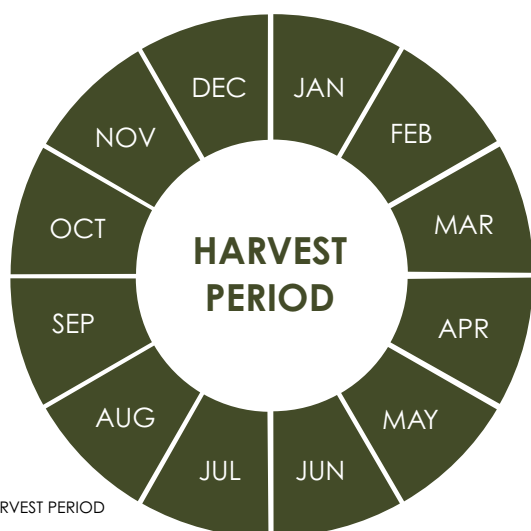

Suitable for cut and process production.

## UNTREATED SEED

Available as untreated seed.
