

LETTUCE BUTTERHEAD

EARL *Nr*

EARL is a mid-green coloured, traditional butterhead suited to year round production in hydroponics.

This variety produces a shiny green leaf with a small flat base making for an attractive cut, sleeved product.

A strong disease package and versatility makes this variety a good option for both greenhouse and field production.

EARL has strong cold tolerance, so is a good choice for winter and spring but also offers growers strong tip burn tolerance and slow bolting for warm season production.

VARIETY FEATURES

- Mid-green colour
- Medium head size
- Medium vigour.

AGRONOMIC CONSIDERATIONS

- Suitable for hydroponic production systems
- Strong tolerance to tipburn
- Strong tolerance to bolting.

PACK SIZES

1M, 5M, 25M, 100M

DISEASE RESISTANCES

High Resistance: Bl.29-41, Nr:0

Untreated seed

Available as untreated seed.
